Software Engineer

My dedication to produce high quality work brings thoughtfulness at every stage. I thrive on solutions that are purposeful and provide efficiency for users without sacrificing on value. Years of forensic accounting experience built strong analytical skills that I draw on to make successful applications.

SKILLS

CSS3, HTML5, JavaScript, jQuery, React, Express, MongoDB, Mongoose, Node.js, Ruby on Rails, Postgres, SQL, GitHub

EXPERIENCE

General Assembly, Software Engineering Immersive Program, remote **Aug 2020 - Nov 2020**

Applied developer skills in MVC framework to group and individual projects during a 420-hour course. Projects include, but not limited to:

- Your News - A responsive app that pulls third party API from GNews to show articles by category or by keyword search. Built with React.
- the.Learn - A responsive app where users can take multiple choice quizzes as well as create custom categories and questions. The user results are displayed in a dynamic D3 bubble chart. Technologies used were React, D3, Ruby on Rails. Full CRUD functionality. Backend hosted on Heroku.
- Pause - An app for users to maintain a wishlist of self care activities. Full CRUD functionality with auth using React, Express, Mongo, and Node.js. This was a group project built in a week where version control was managed using GitHub. My primary responsibility was for the front end functionality in React.

Ernst & Young LLP, Fraud and Integrity Services Senior Manager, Chicago, IL **Apr 2012 - Jun 2020**

- Collaborated with the forensic technology team to standardize the user interface of the Relativity eDiscovery platform across all projects for a client. Reduced repetitive tasks and increased efficiency.
- Collaborated with the forensic technology team to coordinate imaging of electronic devices at client sites, identify relevant contents on devices, and determine the most effective process to analyze data. Satisfied clients requested additional work.
- Analyzed metadata of electronic documents that resulted in key investigative findings for clients
- Conducted and managed over 35 investigations of alleged Foreign Corrupt Practices Act violations, anti-bribery and corruption risk assessments, and financial statement related investigations
- Reported key findings to clients based on my quality review of teams' complex accounting analyses, oversight of US and international teams that analyzed thousands of electronic documents and tested hundreds of accounting transactions. Supported clients with upwards of 100 witness and informational interviews.

Ernst & Young LLP Financial Statement Auditor Senior, Detroit, MI **Sep 2009 - Mar 2012**

- Conducted period end financial statement audits of a Fortune 100 automotive supplier. Detail reviewed certain material asset and liability accounts to assess reasonableness and preparation in accordance to Generally Accepted Accounting Principles.
